The Complete Java Roadmap

BASICS TO ADVANCED

Akanksha Buchke

➤ OOP
- Object and class
- Inheritance (overloading, overriding)
- Polymorphism (compile time, run time)
- Encapsulation
- Abstraction (abstract class, interface)

➤ Basics
- Internal working
- JDK, JRE, JVM
- Variables and Datatypes (Primitive vs Wrapper)
- Implicit Vs Explicit Conversion (Type Casting)
- Naming Conventions
- Operators
- Keywords and Access Modifiers
- Methods and Constructor

➤ Flow Control
- Conditional Statements (If Else, Switch)
- Loops (for, while, do while)
- Break and Continue

Akanksha Buchke

➤ Important Keywords
- final
- this vs super
- static
- abstract

➤ String
- Immutability and string constant pool
- StringBuilder vs StringBuffer
- String Comparison: == & equals()

➤ Exception Handling
- compile time vs run time exceptions
- try catch finally
- throw vs throws
- finally

➤ Memory Management
- stack vs heap
- OOM error
- StackOverflow error

➤ Garbage Collection
- Types of GC
- finalize()

Akanksha Buchke

➤ Multithreading
- Multitasking
- Multiprocessing vs Multithreading
- Thread vs Process
- Lifecycle of a Thread
- Multithreading Implementation
- sleep(), join(), yield()

➤ Collection framework
- Java Collection Framework
- Collections Interface Methods
- Java Collections Interface
- Java Collection Classes
- Collection vs Collections
- Comparator vs Comparable
- HashMap internal working

➤ Java 8
- Functional interface
- Lambda Expressions
- for each
- stream API
